

# Dr. Howard Williamson - Professor of European Youth Policy, University of South Wales

04/04/2024 - Faces of EGL

The first thought that comes to mind when seeing and hearing Dr. Williamson is correct, he is a one-of-a-kind visionary, rock star youth work practitioner, and fully-fledged youth advocate. His ability to balance well a plethora of stakeholders and conditions needed for the quality development of youth work quickly immerses you into the youth work field and its importance in our modern world.

As one of the champions of youth work in Europe, Dr. Williamson takes us over all important milestones for youth work in Europe. He can also skillfully inspire us on how and where to reach out for determination and resilience when it comes to lobbying for youth and youth work. Even after decades-long contributions to the field, there's still that spark in his eyes and grit in his voice to drive the development and innovation in youth work.

We had the pleasure of hearing Dr. Williamson during the European Conference on Local Youth Work and Democracy, in Brussels, February 20-23, 2024. For the occasion of Belgium's Presidency over the Council of the European Union, he authored and presented his publication '[Taking Stock - Where are we now: Youth Work in Contemporary Europe](#)'.

Here we share some of his rich biography and contribution to the field of youth work, as well as his full video presentation at the opening ceremony. The conference hosted 400 participants from all over

Europe.
