

## **Invitation to the Launching webinar of the Changemakers Kit**

Dear friends of Europe Goes Local,  
Dear colleagues,

The Europe Goes Local strategic cooperation project is arriving at a new milestone. After launching the [European Charter on Local Youth Work](#) in 2019, the network started to build an on-line toolkit to support the implementation of the Charter. This on-line toolkit, which we will call the Changemakers Kit includes good practices, explanatory and background information, a library of useful documents and an interactive tool for self-assessment and planning future actions.

The launch of the Changemakers Kit will happen via a live streamed webinar on the 20th of October at 14:30-16:30 CET. Besides introducing the features of the new tool at the webinar, we also intend to create a moment for reflection on the situation of local youth work and to have a live panel discussion between key stakeholders, presenting good practices from the municipal level and messages from decision makers.

The webinar can be followed through open access via [Zoom](#) (without preliminary registration) or attending the [Facebook event](#).

The webinar will be recorded and accessible later via the [event page](#) on the website of Europe Goes Local.

We are looking forward to having you in the audience of the webinar and kindly ask you to forward this invitation to your networks and colleagues who might be interested to join as well.

With best regards,

Judit Balogh on behalf of the developer team
