IMPACT

POWER GROUP

- Becoming true empowered and more effective change makers
- Developed peer to peer learning
- Involving young people in decision making process, since its beginning to its execution
- Boosted active participation of young people
- Social and personal competences have been developed

PARTICIPANTS

- To understand youth needs and to calibrate answers in an integrated way;
- Young people on the center of the key decision, using tools such as “Europe Goes Local” or “Democracy Reloading”
- Specific contribution for knowing, building solutions and recommendations, and also dissemination of european values, european citizenship, youth rights, european institutions, digital participation, EU key competences, european youth policies
- Raising and improvement of youth participation on european youth activities

YOUTH POLICIES

- A true moment of civic innovation of youth policies (proximity work with, by and for young people)
- Great contribution to the calibration of Gaia youth policies following feed-back received by participants;
- 7 principles sourced from the contributions of “New Voice to Youth(s)” cross with principles and international indicators that define quality standards;
- Emphasize trust on political processes and democratical institutions:

In numbers

Participants

Young People

Policy Makers

- Web 3.0

Feeling

- Associativism
- Youth Work
- Methodologies
- Volunteering

Talent

- Education
- Employment
- Arts
- Sports
- Digital
- Social Environment

Evidences

TESTIMONIALS

- “New Voice to Youth(s)” is an outstanding project in the youth field. We can say that is a project built by young people, where unique perspectives were shown which, in fact, reflect the face of Gaia youth” **Gonçalo Riscado**
- To me it was very important and rewarding to make part of this group that shared contributions and wanted to be listened. But I must emphasize that power group was a key motivation to share our own ideas. All the sessions were enriching, actively participated and the dynamics were amazing” **Mariana Marques Moreira**

POWER

- To ensure that young people can be listened and are able to participate on a project that can emancipate them and let them to be at home. The process had the mediation of active young people related to Youth Office. I only have two words: gratitude and success. **Carolina Almeida**
- To participate on “New Voice to Youths” was a great window to a world full of opportunities and connections. Together with young people of Gaia, we defined contributions and initiatives that reflect our concerns, aspirations and visions towards a more inclusive and resiliente City and Europe. **Sofia Almeida**

GROUP

- “New Voice to Youth(s)” has an added-value to the youth of Gaia , because youth policies need to renew and to adapt to a society constantly changing. The process adopted in the project allowed young people to be an active voice and, therefore, to reach outstanding measures. An Erasmus + project that effectively recognizes young people as effective change makers, leading them to a process that will end on a fairer, solidar and sustainable society. **Bruna Rodrigues**
